Question 08 write a paragraph of FIFTY words using the following guide elements

Ancient Egyptian artifacts

climate - granite

We have so many artifacts in Egypt. Egypt has a hot, dry climate. It is good for preserving these artifacts. They aren`t damaged by cold and wet weather. The Ancient Egyptians made the pyramids from granite. It is a very hard and durable stone. It could last a long time.

2

Metal in Ancient Egypt

traded - weapons

The Ancient Egyptians traded with other countries, and metal was one thing they traded. They first found metal in rocks. Metal was harder than stone, and they could melt and form it into different shapes. They used it to make tools and weapons, so that they could hunt on the land, and grow food. Gold was a popular metal for making jewelry and art to sell.

Animals in Ancient Egypt

cats - grain

The Ancient Egyptians loved animals and kept many as pets. They particularly adored cats, and there was a cat in almost every house. The Ancient Egyptians believed that cats looked after them and kept them safe. They were also good pets because they cleaned themselves and kept the houses free of pests like rats and snakes. The rats didn`t eat the grain because the cats ate the rats.

Iron in Ancient Egypt

Where did Ancient Egyptians find iron ?

What did the make from Iron.

The Ancient Egyptians used copper and bronze before iron. They started using iron thousands of years ago. It was difficult to work with iron because it needed a very hot fire to melt, which often wasn`t possible. Ancient Egyptian craftsmen made a famous dagger for Tutankhamun's tomb from a meteorite. They also mined iron from the ground.

5

A visit to the museum

artifacts - climate

Tamer and Tamara are at the museum and Mr. Tarek is their guide. They are excited to learn more about Ancient Egyptian artifacts. The hot, dry climate in Egypt helps to preserve artifacts. The ancient Egyptians built the pyramids with granite. They used clay to make pots. They used a lot of gold in Tutankhamun's tomb.

6

Your favorite games

video games - creative

My favorite games are video games. I don't play them often, though. I play for about one hour on the weekend. My favorite games are the ones where you build cities. I've made a really big city using different bricks. It has animals and plants too. I like these games because you can be creative and do something new.

Silver in Ancient Egypt

jewelry - durable

The Ancient Egyptians started using silver thousands of years ago. There weren't many silver mines in Egypt, so we think they brought it from other countries through trade. They used it to make jewelry and mirrors. They also used sheet silver to decorate statues. We don't find many silver in ancient Egyptian artifacts because it isn't very durable. Sadly, the salt in the tombs destroyed a lot of it, so we cannot see very much of it today.

Your favorite toy

skateboard - helmet

When I was younger, my favorite toy was the skateboard. I loved going to the park and playing with my friends. They had skateboards, too and it was really good fun. We all wanted to go so fast! My skateboard was black, with orange and yellow stickers on it. I had to wear a helmet and knee pads. It really hurts if you fall off a skateboard, but it was fun.

5- Read the text and answer the questions:

One night, King Midas was walking in his garden when he tripped over something on the ground. It was a strange-looking goat. It looked very sick. King Midas was a kind man, so he took the goat into his castle. There, he gave it food and a warm bed. In the morning, the goat felt much better. "I would like to thank you, King Midas," said the goat. "What would you like more than anything else in the world?" King Midas thought for a minute, then said, "I would like everything I touch to turn into gold." "OK," said the goat, and made the king's wish come true.

The Ancient Egyptians started using iron more than 5,000 years ago. Before iron, they worked with copper and bronze. Amazingly, some of their early iron was from meteorites. Ancient Egyptians craftsmen made famous dagger for Tutankhamun's tomb from a meteorite. They also mined iron from the ground. But they found it quite difficult to use because it needs a very hot fire to melt, which often wasn't possible. They thought iron was special because they believed it came from the sky.
